

Phantom Leader

Errata and Clarifications – 04/13/10

Gringo Pilot Card:

The Promoted side should have been Skilled, not Veteran. His Veteran stats are however valid. At any time after the Average Gringo earns a Promotion, you may pay 2 SO points to flip his card to Veteran.

Pigeon Pilot Card:

Should not have 1967+ notation on unpromoted side

SAR Die Roll Modifiers:

The Target-Bound and Home-Bound die roll modifiers in the rules are correct. The modifiers listed on the Player Aid Sheet are incorrect.

War In The South – USAF Campaign Sheet:

Target #26 is a big target for the campaign, so I didn't want it coming up often, but I did want it to be possible. It can be selected with the All Good Things event.

EA-6A and EB-66 Site and Bandit modifiers also modify attacks from Event cards.

The backside of Driver's chit should be an A-6.

USAF Linebacker Medium – 13vp falls into the Poor range

Leaving the Target:

You can choose to have all your aircraft exit the Over Target phase at the end of any turn. If you do this, all your aircraft must exit.
